

# TOMER KARAVANI

## FULL-STACK DEVELOPER

054-6781099 | tomeriko89@gmail.com | [LinkedIn](#) | [Portfolio](#)

### SUMMARY

A highly motivated and detail-oriented Full-Stack Developer with extensive knowledge of HTML, CSS, JavaScript, React, Node.js, and Python, along with experience in databases such as MongoDB and PostgreSQL. Proven expertise in developing dynamic applications and building an impressive portfolio, with a strong academic background in software development. Creative, organized, meticulous, and a team player, eager to contribute to innovative projects and grow professionally.

### KEY SKILLS

- HTML
- CSS
- JavaScript
- React
- Node.js
- PostgreSQL
- MongoDB

### EDUCATION

Full Stack Website Development at HackerU College, 535 academic hours.  
Front and Back with Relational and non-relational databases

Sep 2024- Mar 2025

### PROJECTS

#### Frontend Project in studies framework

Developed a frontend web application using the React library as part of college studies, focusing on practicing and enhancing frontend development skills. Strengthened expertise in React-based web architecture, improving proficiency in component-based design, state management, and user interface development.

#### Backend Project in studies framework

Developed a backend system for websites using Node.js as part of academic studies, focusing on practicing and improving server-side development skills. Gained practical experience in server-side logic, API development, database integration, and Node.js-based application architecture.

### WORK EXPERIENCE

Distribution lines team manager in Kaufman Group 2022-2023

- Achieve significant annual savings in transportation costs by implementing volume measurement systems in all active distribution lines and optimizing related workflows.

Business and Private customer agent in Dr-Gav 2018-2021

- Increased business client acquisition and satisfaction rates by delivering professional, accessible service and streamlining procedural workflows for consistent, high-quality support.

Business customer agent in MEGA Retail 2014-2018

- Boosted supplier satisfaction and business revenue by increasing orders number through professional, personalized service and structured, efficient client management procedures.

Pre-military electronics engineering studies 2007-2009

Military Service 2009-2012

Experienced in the field of electronics through military service, including a dedicated course at the Air Force Technical Base in Haifa. Developed a strong foundation in working with electronic systems and within related environments.
